FIND PAULT WITH ELEVATED.

COMPLAINTS BRING FORTH A STATEMENT OF TRAFFIC.

Vice-President Bryan Says That Passengers Are Fewer, but the Car Mileage Has Increased-Mr. Belmont Said to Have Insisted en Important Improvements.

since the opening of the subway there have been repeated complaints that the number of trains on the elevated lines has been cut down and that the crush is worse than ever before.

These complaints drew from General Manager Frank Hedley last Tuesday a statement that three trains had been added to the East Side line in the rush hours and that not only had the service on the West Side lines not been reduced in these hours, but that no such reduction was contemplated,

Nevertheless two northbound express trains have been taken off the Ninth avenue line in the evening. This was done by lengthening the headway between 5 and 5:24 and between 6 and 6:30 one minute. or from four to five minutes. From 5:24 to 6 o'clock the old four minute headway is maintained.

Instead of answering this complaint directly, Vice-President Bryan gave out a statement yesterday showing that, although the traffic on the elevated roads had fallen off for the first twelve days of November, both the speed of the trains and the car mileage on the system had been increased. Here is Mr. Bryan's statement:

Here is Mr. Bryan's statement:

Statements have recently been made regarding the number of trains operated on the Manhattan Railway division of the Interborough Rapid Transit Company's system since the opening of the subway. Mr. E. P. Bryan, vice-president of the Interborough Rapid Transit system, herewith gives the mileage and passenger business on the Manhattan Railway division for the first twelve working days in November, 1903.

trains are often held up at Franklin street for three or four minutes to allow the starting of Sixth avenue locals from that point. It used to be different in the old days when Russell Sage, George Gould, Col. Hain and many other men prominent in the Manhattan Railway travelled on the Fifty-eighth street branch regularly. Then it was known among the employees as the Directors' line." But Col. Hain is dead now and George Gould has moved over to the Fifth avenue side of the Park and Russell Sage is no longer a factor to be reckoned with in the management of the elevated roads. Those in charge now say that the Fifty-eighth street branch is not an integral part of the system. To emphasize this view of the matter they have not only cut down the train service in rush hours, but shortened the time in which trains are run and lengthened the time in which trains are run and lengthened the time in which the shuttle car to Fiftieth street is operated.

So loud has been the outory against the curtailed service on the elevated that August Belmont, president of the Interborough company, is reported to have been stirred by it. At a conference in his office on Friday it is said that he delivered the following ultimatum to the heads of the eperating departments:

"You are not running all the trains you could operate and you must do better. The public complaints about inadequate

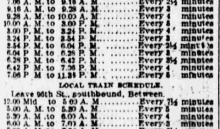

could operate and you must do better. The public complaints about inadequate service are justified and I want the causes removed."
Mr. Belmont, it is said, delivered this message after a personal investigation of the traffic situation on the elevated roads.

NEW SUBWAY SCHEDULE.

To Take Effect on Wednesday, When East Side Branch Opens.

The new schedule of the Subway trains which will go into effect at 12:01 A. M. next Wednesday when the East Side branch from 103d street to the Harlem River is opened, was decided upon yesterday. The new arrangement provides for the operation during the rush hours of express trains every two and a half minutes instead of four, while the local trains will be run every two instead of three minutes.

This is the rearranged time table: EXPRESS TRAIN SCREDULE.

7.06 P M to 11.34 P. M. Every 8 minutes
LOCAL TRAIN SCHEDULE.

Leave 96th St., southbound, Between.

11.00 P. M. to 11.00 P. M. Every 5 minutes

North of Ninety-sixth street the express and local trains will alternate, one half to the east division and the other half to the west division. The running time has not been materially changed. On the East Side branch the time the trains will take between Ninety-sixth street and 145th street will be twelve minutes. The express trains have been scheduled to cover the distance between Brooklyn Bridge and Ninety-sixth street in sixteen minutes.

Brooklyn Bridge and Ninety-sixtu strest in sixteen minutes.

In that way the express trains will go to the Harlem River in twenty-eight minutes, while local trains will occupy ten minutes lenger. On the present west side line the express trains will run between Brooklyn Bridge and 145th street in twenty-six minutes and the locals in thirty-six minutes.

New Office Building for the B. & G.

BALTIMORE, Nov. 19 .- President Oscar G. Murray announced to-day that the Baltimore and Ohio Railroad would build a fourteen story office building at the northwest corner of Baltimore and Charles streets, to be used as a central building. It will be the largest structure in Baltimore and cost about \$1,500,000. The company lost its central building in the great tre and has purchased a larger site further uptown.

TO BEAT A BALLOT LAW.

Any Dealer Will Supply You.

Maryland Republicans Evolve a Plan to Step Vote Discrimination.

BALTIMORE, Nov. 19.-With the State lection a year off the Republicans are preparing and are mapping out a plan by which they hope to defeat the Democrats n those counties wherein the Wilson ballot law is operative. Under the provisions of that act the names of the candidates for office in certain black belt counties must appear on the ballots without party desig-

The act is operative in Anne Arundel, Calvert, Charles, Frederick, Garrett, Kent, Prince George, St. Mary, Somerset, Talbot and Worcester counties, and in each of these the ballot next year will contain the names of the candidates for State offices, for the Legislature and for the various

for the Legislature and for the various county offices.

At the last election only two marks were required on the ballot—one after the name of the Presidential candidate and one after the name of the Congress candidate—and the illiterate negroes were taught easily to make these two marks. To vote the full Republican ticket at the next election it will be necessary to make from six to twenty marks on the ticket. The constitutional amendment will also be placed on the ticket and will require an additional mark for or against.

and will require an additional mark for or against.

To circumvent the apparent effort to confuse the illiterate vote aplan has been formulated to nominate only one man on the ticket in the counties heavily populated with negroes, so that they may be taught to vote for that nominee and against the amendment, requiring only two marks, the same number required at the ast election.

This will probably not be done in Frederick and Garrett counties, which are considered surely Republican without the illiterate vote, but the plan will be used in all other Wilson bill counties.

TO SANDBLAST LONDON, TOO.

Process Used on the City Hall Is to Be Tried on the Fog-Grimed City. Inventor Farnham of the sandblast with which the City Hall is being cleaned is in London at present, forming an English company with a London engineer, J. W.

The representative in charge of the City Hall cleaning, Mr. Betts, had this to say yesterday. Concerning the criticisms of the work done on the City Hall and the com-

pany's English contracts: "Why, this cleaning is not hurting the building, in my opinion; it is, bringing out the natural beauty of the stone, the veins, colors and shadings. Our process doss

colors and shadings. Our process dose not chip the building; you see it is old and much chipped already.

"Mr. Farnham has been very successful in London. We have more work shead of us there than we can handle. London is made up largely of stone and marble, and when this is thoroughly cleaned old London will look like a real celestial city. Anyway, they don't believe over there that dirt and grime is art.

"In Toronto lately an English house wented their building cleaned, but as we had no opportunity just then to take up the work we quoted a price high enough to bring a refusal. They, however; sought the contract at the price named, but we were forced to make them wait until spring." CAPT. NALLY'S SON CAUGHT.

Accused of Holding Dance Hall Watchman

While Pal Shot Him, Last August, William Nally, son of Police Captain Nally of the West 100th street station, wanted by the police since Aug. 4 for alleged complicity in the shooting of Special Policeman John Stadtmuller at the Riverside Casino, 216 West 110th street, was arraigned in the West Side court yesterday morning on a charge of felonious assault and held in \$3,000 for examination by Magistrate Om-

men on Monday morning. Nally was arrested early yesterday morning at 184th street and Third avenue by

ing at 184th street and Third avenue by Central Office detectives. Upon advice of his lawyer, former Assemblyman James E. Smith, he refused to discuss the case. He only told the police that since August he had been working as a bartender and living in East Fitteenth street.

It is alleged that Nally held Stadtmuller while a companion shot him. On the night before the shooting, the police say, Nally and several of his friends raised a disturbance in the Riverside Casino and were ejected by Stadtmuller. Threats were made and the crowd, it is said, returned to carry them out. Who did the shooting the police, declare they do not know.

Stadtmuller was badly wounded. He remained in the J. Hood Wright Hospital for several months, but finally recevered:

JOHNSONS CONFESS MURDER.

Tell How They Killed the Wife and Daughter of One of the Family.

WILKESBARRE, Pa., Nov. 19 .- Confessions of the four members of the Johnson family who, with their mother, are accused of the murder of Mrs. Bigler Johnson, wife of the eldest son, and her ten-year-old niece, resulted in all of them being held

niece, resulted in all of them being held without bail by Judge Oroutt of Towanda to-day. The Grand Jury will pass upon the case next week and they will be tried in December.

Bigler Johnson's confession was that the plot to kill his wife was arranged because he did not want to pay her the 36 a month ordered by the court. He admitted that he agreed to pay his mother and his brother, Charles, 35 each for killing her, and says they did so. The child was found in the house at the same time, and killed so she could not tall.

house at the same time, and killed so she could not tall.

Charles Johnson declares that his mother and Bigler killed the two, Figler killing his wife and the mother pursuing the child as she ran down the road and killing her with a club. Charles then declares that with his brother Alanson he set fire to the house and burned it down. His thirteen-year-old sister, Nancy, also accused, was in the plot and stood guard in the road during the murders.

The mother is the only one who has not confessed.

The Weather.

The Weather.

There was a general rise of temperature yeater-day in all parts of the country east of the Rocky Mountains. In consequence of the formation of an oblong area of low pressure, which stretched from Lake Superior southwest to northern Texas, and the settling of an area of high pressure over the Tennessee Valley. This combination will cause still warmer weather in the Atlantic Stales to-day. The Western storm was gathering energy. The winds were becoming high in the upper Mississippi ar i Missouri valleys, and rain was beginning to it in the districts around the upper Lakes. Fair we take prevailed in all other districts east of the Rocky, Mountains. The pressure was low and heavy rain was failing on the north Pacific coast. In this city the day was fair and warmer; wind, in this city the day was fair and warmer; which, fresh northerig; average humidity, es per cent.; bart-meter, corrected to read to sea level; at \$ A. GAS EMPTIED THE HOUSE. Grating Fell Into the Celtar and Broke

Militery Brushes, fine bristles.

Regularly \$2.50.

2 Inch Gas Pipe. An iron grating set into the sidewalk in front of the five story tenement house at 31 Allen street fell through into the cellar yesterday morning and broke of a two inch gas pipe. The eighteen Hebrew fami-

from the synagogue and were at dinner when a man ran through the house banging on the doors and shouting to the people to get out at once and to put out their lights. He was nearly overcome before he got to the street again. After him swarmed the scared tenants. Some got out by the fire eacape, but most by the stairways.

Jacob Zuckemann, storekeeper on the ground floor, was carried out unconscious.

CINCINNATI, Ohio, Nov. 19 .- Mrs. Grace Morand Fennessy, wife of James E. Fennessy, a well known theatrical man, committed suicide here last night by taking carbolic acid. Worry over divorce proceedings which have been pending for several months is seid to have been the cause. The two were married in New York a year ago last June.

Oklahema Wants to Absorb Indian Terri-

EL RENO, Okia., Nov. 19.—The Oklahoma Bankers' Association in annual convention unanimously adopted a resolution asking Congress to give Indian Territory local self-government immediately by extending the Oklahoma laws over that Territory. This followed the vote yesterday to merge the Oklahoma and Indian Territory banking associations.

Three Drewned in a Wiscomin Lake. EAGLE RIVER, Wis., Nov. 19 .- Horace Bent, a hotel keeper; Frederick Anderson, and an Eastern tourist were drowned yestrday in an attempt to cross Tenderfoot Lake in a cance through a heavy sea. Bent was a good swimmer and could easily; have eaved himself, but it is thought belost his life in an effort to help the others.
